- **Head Foreign Teacher**

Objective

I have experience teaching students of all levels and ages and I believe I can implement a very good classroom atmosphere. I'm good at teaching and adapting myself to any situation. I have a good rapport with students and I can handle classroom discipline comfortably.

I have a solid background in teaching English as a second language. I have been teaching second language English for the last 6 years. I have also taught an Art class and done various school trips. I have a great amount of experience in curriculum and lesson planning and level testing.

Although I have been teaching English as a second language for 6 years, I do believe that it gave me the necessary skills to teach any subject. Having taught in several countries has taught me to respect and learn from different cultures. It has also taught me how to be patient and to appreciate the differences in children.
